Good morning,

Please find attached the most updated version of the OEM assignment chart. We now have point people for all OEM families (or confirmation that we can go ahead with existing point people). Auto dealers, please advise if you have made any switches since Friday. For most OEMs, we are good to go, and can make our initial calls for introduction, and for scheduling a more substantive call. The point people for each family will need to coordinate on who/how you will reach out. When you decide on who will be the "official" point of contact from your group, please advise and we can add it to the chart. When scheduling the first group/substantive call, please defer to our agreed set call times as the first options

(Monday-Thursday 9 am to 1 pm Pacific). Please also remember to check in with Rob Haegele (HBSS paralegal) before confirming the time with an OEM (to make sure we do not double book). When you confirm a time with an OEM family, please send a notice of the time to the whole group by email. In addition, Rob Haegele can circulate the full calendar for the upcoming week each Friday.

The extension language is also confirmed and can be relayed to the OEMs in the initial call and/or followed up with email or letter confirmation. Please also find attached the full Excel chart of entities with service details and a summary of initial communications, for your convenience.

We are working on drafting talking points for use on our group calls with OEMs, and hope to have something to circulate in a few days.

Best,
Ronnie

Please let me know if you have any changes or comments on the email below for Honda counsel.

Hi Tina,

Thank you for taking the time to speak with the serving party group last week. We appreciated the opportunity to begin the conversation with the Honda entities. I am writing to follow up on a few of the items we discussed.

- 1) Description of Honda entities: We appreciate any information you can provide in writing on the various Honda entities and their functions. This will help us better understand which entities have responsive information in the Honda corporate family (or whether information may lie with another entity, etc.).
- 2) DOJ productions: We appreciate Honda's willingness to provide the DOJ productions for wire harnesses, anti-vibration rubber parts, and bearings. You mentioned that you were seeking approval from the DOJ with respect to production of that information. The stays in those cases have been lifted. Are you just seeking to confirm that

the stay has been lifted or are there other items which need to be clarified with the DOJ? Please let us know if we can provide you with any further information or clarification.

- 3) Production: When Honda is ready to make an initial production (DOJ or from search of Honda entities), it would be very helpful to touch base on the actual production logistics, as well as format, custodians, and metadata fields to be produced.

We know that you are in the period of responding to the subpoena. We hope to speak with you further once Honda has had a chance to respond. Please feel free to contact us in the meantime with any questions or concerns.

Kind regards,
Ronnie

Ronnie,

I would like to add an agenda item to Friday's call regarding OEM subpoena issues. Kendall Millard (new to the case and representing a defendant in the shock absorbers case) and I have identified at least 3 more recent parts that are not covered by the current subpoena: shock absorbers, automotive hoses, and automotive brake hoses. I anticipate that this will continue to be an issue as additional products are added to the MDL. Do you know whether the serving parties have discussed this issue in the past? If not, we should consider how to address the addition of new parts.

Thank you,
Heather

Hi All,

As a follow up to my email on Friday, I am drafting an email to go to the OEM counsel on EPPs' responsibility list (Toyota, Honda, Hyundai/Kia). I think it would be helpful to propose actual dates in the email, and then ask for a phone call to further discuss dates and location. I know that the proposed dates will probably not keep given the expected objections/appeals, but I wanted to run them by the group, in case, before proposing them. I am planning to propose:

Week of 5/23
Week of 5/30

Once the weeks are proposed, we can have further negotiations, if they are willing, re the exact two days within each week that work best, and location. Please confirm if your group is ageeable to proposing these two weeks to start. We hope to get these emails out or make initial calls to counsel today. We hope those responsible for the other OEM families can also reach out to their assigned OEMs today or tomorrow.

Thanks,
Ronnie

Counsel,

As a follow up to our call and to Pat's good suggestion that we reach out to each OEM group re scheduling and/or possible negotiation early next week, here is the list of the OEMs, OEM contact counsel, relevant entities, and previously-assigned point people. If there are any changes to the point people, please advise. Please note, some OEM families are listed twice to reflect the split of entities and counsel.

Perhaps, we can work on drafting some common language to use in our initial contacts with these entities. Also, if we are going to approach regarding scheduling depositions, do we want to have a list of pre-set dates to propose?

Ronnie

Subject: Re: Recap of Today's Weekly OEM Discovery Call

Ronnie,

Baker Botts represents Toyoda Gosei in the OSS case. Can you let us know who the point people are for OEM discovery for each of the OEMs? We would like to make sure we have someone on each of the individual OEM calls and are on the correspondence.

Thank you

Heather

Counsel,

To help us all keep track of all the moving pieces, here is a quick summary of status and items due for each OEM, and other cost and scheduling items. The point person for each OEM is also listed for your reference.

- 1) FCA (Sheldon Klein)
 - a. FCA provided list of upstream suppliers. Parties need to get back to FCA with our choices. The Parties will get back to each other by Tuesday, 3/20, with their respective choices.
 - b. Parties need to get back to GM with the list of suppliers and then draft letter to GM re production schedule and expectation that production go quickly.
- 2) GM (Floyd Short)
 - a. Floyd short working on terms of stip with GM counsel. Stip needs to be finalized.
 - b. Parties need to review GM commodity codes list and figure out which ones pertain to OSS, and then give the collective agreed list back to GM counsel.
- 3) Honda (Evelyn Li)
 - a. We had a call with Honda counsel. Honda counsel was checking on whether OSS production can be accomplished and on what timeline. Honda counsel asked if the parties could put in writing exactly the items we are seeking at this stage (which is just what is in the Honda Order). Parties sent Honda counsel a letter, and it is pending.
- 4) Nissan (Will Reiss)
 - a. Parties had a call with Nissan counsel (Paul Cauley) on 3/16. Parties relayed the message that we are now seeking OSS. Paul said he would check with Nissan to get the status re how long it might take to prepare production for OSS-specific categories. Next call was set for 3/29 to follow up.
- 5) SIA (Lucas Isacharoff)
 - a. The Parties had a call with SIA counsel, and Kim Metzger is checking on agreement to produce OSS, and a potential timeline.
- 6) SOA (Lucas Isacharoff)
 - a. Finalizing letter re expert handling of SOA data. Defendants will get back re their potential edits to current draft in the next few days.
 - b. Costs must be paid before SOA will produce.
 - c. Parties need to let Neal Walters know if they want a masked set of data prepared for attorneys to view.
- 7) Toyota (Will Reiss)

- a. The Parties had a call with Toyota counsel. Toyota is checking on conversion to OSS and timeline. Parties sent a letter to Toyota asking for a commitment to produce, and to set a schedule in quick order. Waiting to hear back from Mike Schaper.
- 8) Costs
 - a. EPPs will draft and circulate potential cost-sharing agreement between the Parties. Other Parties will review and edit re the 70% split of production costs.
- 9) Setting Production Schedule with Each OEM – Letter to each OEM
 - a. Each OEM group should draft letter to be sent to each OEM, to tie up any issues and to push for a production schedule in writing.

Best,

Ronne

Ronnie,
I'm copying my partner, Mark Miller. Thank you for the EPP choices. I know that other OEMs are compiling cost estimates for the serving parties. Do we have that information from FCA? My apologies if this has already been discussed, but this information is important to defendants.

Thank you,
Heather

FCA Team,

We need to get back to FCA (quickly) on the list of OSS suppliers. EPPs' choices are indicated below, in the top grouping. Please confirm if you agree to ask FCA for the top 7 (in yellow), or if you have changes to the list. Please let us know no later than EOB tomorrow. Heather and Sheldon, I am not sure if there is anyone else that should be included for defendants. If I have missed anyone, please advise (and please forward this email).

Thanks,

Ronnie

Colin and David,

I am hoping we can set up a time to discuss FCA's production in the auto parts cases. Do you have time tomorrow, 2/14, either at 1 pm Pacific or 2 pm Pacific for a call? Please advise, or let us know other times that will work.

Best regards,

Ronnie
